# Digital Marketing

## Coursera

PRESENTATION BY:
ARYAN A. PHADNIS

# Introduction to Coursera

Coursera is a leading global e-learning platform offering online courses, certifications, and degree programs.
This project focuses on redesigning and optimizing the website for better user experience, increased traffic, and improved conversions

# Project Objectives

- Analyze website performance
- Identify SEO, content & UX gaps
- Create complete SEO strategy
- Develop content & social media plan
- Design paid advertising campaign
- Measure success using analytics

# Website Audit

Strengths:
- Strong domain authority
- High-quality educational content
- Trusted university partnerships

Weaknesses:
- Homepage clutter
- Limited interlinking in blogs
- Some pages lack optimized meta descriptions
- Slow loading in certain regions

# Redesign Plan

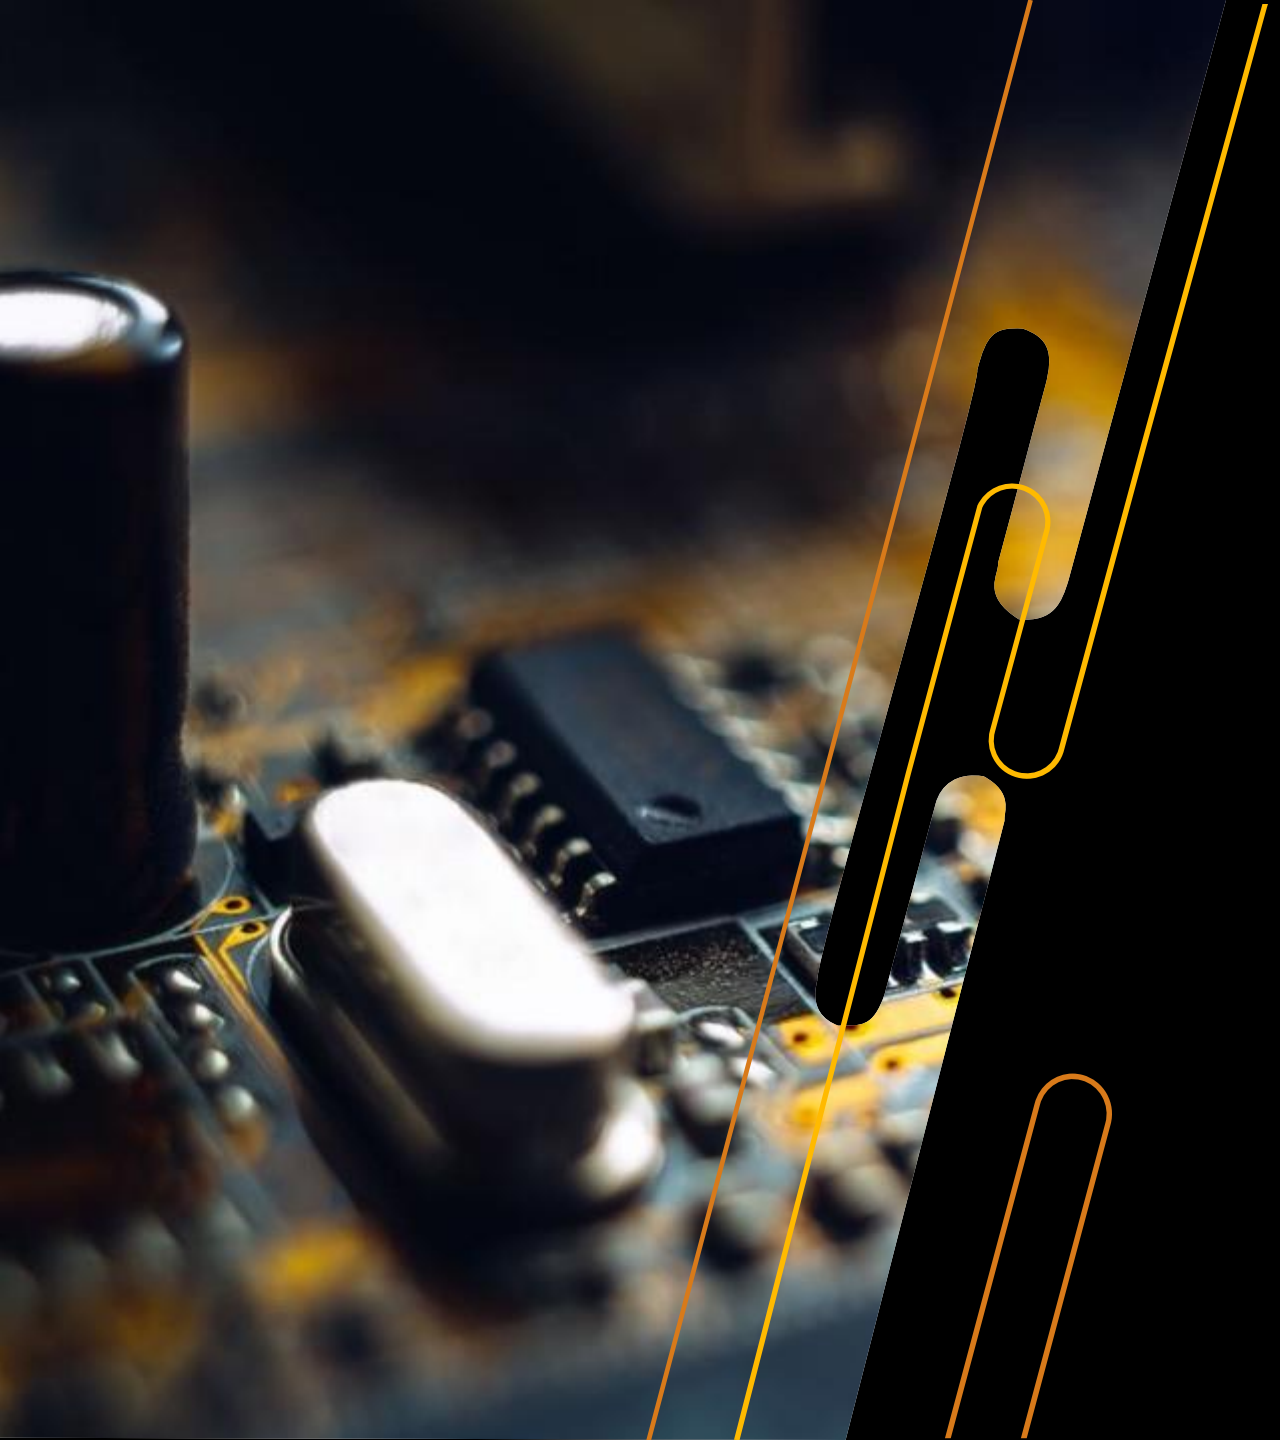
- Simplify homepage with strong CTA
- Improve navigation & smart filters
- Add testimonials & trust badges
- Optimize for mobile users

# SEO Strategy

- Keyword research using Google Keyword Planner, SEMrush
- On-page optimization (meta tags, headers, alt text)
- Off-page backlinks & guest blogging
- Technical SEO (speed, sitemap, mobile-first

# Content Marketing Plan

- Publish 3 blogs per week
- Create Instagram reels & YouTube videos
- Share LinkedIn educational posts
- Monthly content calendar implementation



# Paid Advertising Campaign

Budget : - 2,00,000 for 2 months

- Google Search Ads
- Display Retargeting
- YouTube Ads
- Facebook & Instagram Conversion Ads

# Analytics & KPIs

Tools :- Google Analytics 4, Search Console, Ads Manager

KPIs:

- Organic traffic growth
- Conversion rate
- Cost per lead
- ROAS
- Bounce rate reduction

# Conclusion

A structured website redesign combined with a comprehensive digital marketing strategy can significantly improve user experience, visibility, and conversions.
This project demonstrates practical digital marketing implementation skills.

# Thank you
